## Restoring Our Common Home

1 September - 4 October 2021

### A Message from Pope Francis

"We need to strengthen the conviction that we are one single human family."

"The Earth, our home, is beginning to look more and more like an immense pile of filth. In many parts of the planet, the elderly lament that once beautiful landscapes are now covered with rubbish."

"Never have we so hurt & mistreated our common home as we have in the last 200 years."

"We are not God. The Earth was here before us and was given to us."

"The idea of infinite or unlimited growth, which proves so attractive to economists, financiers and experts in technology ... is based on the lie that there is an infinite supply of the earth's goods, and this leads to the planet being squeezed dry at every limit."

"Yet all is not lost. Human beings, while capable of the worst, are also capable of rising above themselves, choosing again what is good, and making a new start."

### We're Going to Have a Synod... A What?

Earlier this year, the Irish Catholic Bishops' Conference announced that they were embarking on a synodal pathway for the Irish Catholic Church leading to the holding of a National Synodal Assembly within the next five years. The word "synod" and a synodal way of working is perhaps more familiar among our friends in the Church of Ireland who are used to gathering regularly in synod to make important decisions. But there hasn't been a national synod of the Catholic Church in Ireland since 1927. That said, in other centuries, there have been very significant synodal gatherings where decisions were made which impacted the course the Catholic Church took in the years and indeed even in the centuries which followed.

*I have a dream that my four little children will one day live in a nation where they will not be judged by the colour of their skin but by the content of their character. I have a dream today.*

### Life Lessons

Since God gave us two ears and one mouth, He must have wanted us to do twice as much listening as talking.
